

Security Awareness Manager

Use Analytics Driven Approach to Automate Your Security Awareness Program

Security Awareness Manager automates the security awareness program for an organization. It comes with a pre-built & customizable content library that includes SCORM Compliant training modules, posters, infographics & screen savers. The awareness content is assigned to the end users using a seamless workflow while the KPIs are mapped on a powerful dashboard.

Features

1. Customizable Awareness Content Library
2. SCORM Compliant Training Modules
3. Ability to Create Customized SCORM Content
4. Multilingual Content with Regional Context
5. Convert PowerPoint Content to SCORM
6. Supports both On Premise / SaaS Model
7. Integrated & Analytics Driven Dashboards
 - a. Security Awareness Index
 - b. Topic Wise Coverage
 - c. Most Aware End Users
 - d. Most Aware Departments

- Customizable Content with Regional Preferences
- Centralized Dashboard for Security Awareness
- Integrated Solution for Phishing Readiness, Security Awareness, Policy Compliance & Phishing Incident Response

"Security Awareness Manager helped us to automate our security awareness program. The correlation between Phishing Readiness & Security Awareness provided us great insight on the end user behavior"
